I AM

I sit in the castles of business and at the hearthstones of many homes, mighty in my power to serve.

Through me is the power to make people talk with intelligence concerning their communities.

With extended hand I guide the wearied traveler, and to others shorten the distances between destinations.

In me abides the essence of democracy, as side by side is found all nationalities, rich and poor alike.

With uncanny certainty I unite long-lost friends and make glad the missing heirs.

Through me are protected the law-abiding by tracing the criminal to his hiding place.

Through me, in the friendliest way, new trade channels are opened.

I am the key that unlocks the gate to what your community is, for all who would pass its portals.

I Am Your City Directory

I AM

I sit in the castles of business and at the hearthstones of many homes, mighty in my power to serve.

Through me is the power to make people talk with intelligence concerning their communities.

With extended hand I guide the wearied traveler, and to others shorten the distances between destinations.

In me abides the essence of democracy, as side by side is found all nationalities, rich and poor alike.

With uncanny certainty I unite long-lost friends and make glad the missing heirs.

Through me are protected the law-abiding by tracing the criminal to his hiding place.

Through me, in the friendliest way, new trade channels are opened.

I am the key that unlocks the gate to what your community is, for all who would pass its portals.

I Am Your City Directory

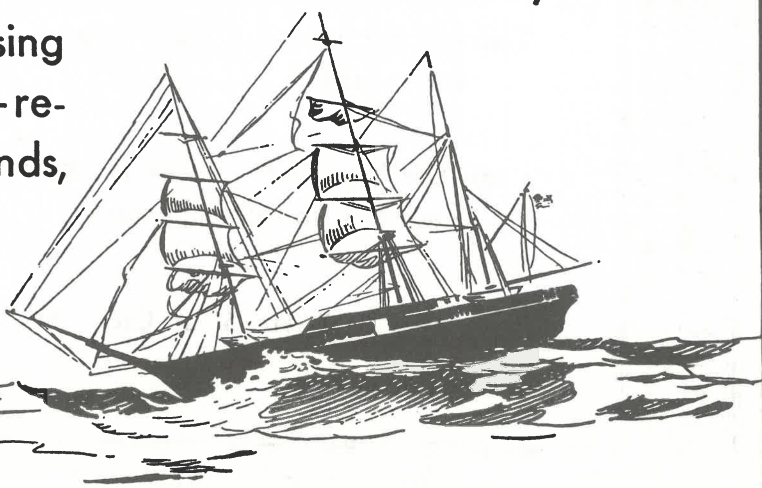
LIKE TO "STRIKE OIL"?



In the good old gusher days, three strikes didn't mean "out" — it meant success.

You can "strike oil" without leaving your desk — use the directory for better advertising coverage — and make a strike.

THE OLD "SQUARE RIG" DAY'S ARE GONE!

The old square rig days meant proper trimming of sails and the correct tack—otherwise disaster. Get rid of your "square rig" advertising —try the Directory—referred to by thousands, your ad will stay on its course.

I AM

I sit in the castles of business and at the hearthstones of many homes, mighty in my power to serve.

Through me is the power to make people talk with intelligence concerning their communities.

With extended hand I guide the wearied traveler, and to others shorten the distances between destinations.

In me abides the essence of democracy, as side by side is found all nationalities, rich and poor alike.

With uncanny certainty I unite long-lost friends and make glad the missing heirs.

Through me are protected the law-abiding by tracing the criminal to his hiding place.

Through me, in the friendliest way, new trade channels are opened.

I am the key that unlocks the gate to what your community is, for all who would pass its portals.

I Am Your City Directory

United States Post Office

NEWARK, NEW JERSEY

ZIP CODE INFORMATION

ZIP Code is a five-digit code which identifies a delivery unit and associates that unit with a major post office through which mail is routed for delivery.

The first digit identifies one of ten large areas of the nation. The first three digits identify a major city or major distribution point. The five digits identify an individual post office, a zone of a city, or other delivery unit.

This directory has been published to assist you in determining the ZIP Code applicable to various streets in one city. The addition of the ZIP Code to the address on mail will expedite the distribution and forwarding of your mail to the point of delivery.

Contact your local postmaster for instructions concerning the adding of ZIP Code numbers to your mailing list without charge.

In this directory, the three digits appearing at the top of each column should precede the two digits listed opposite the street entries. Where no house numbers are shown, the entire street is within the area of the ZIP Code indicated.

When the word "Out" appears after a number, it signifies that particular house number and any higher number on that particular street is within the ZIP Code area indicated. For example:

	ZIP Code
Washington Ave	401
1100 - Out	03

indicates all house numbers on Washington Avenue from 1100 upward apply to ZIP Code 40103.

Mail formerly addressed using a Postal Zone number should now use a ZIP Code. For example:

Mr. John Doe
2103 Washington Avenue
Louisville 3, Ky.

Should be addressed:

Mr. John Doe
2103 Washington Avenue
Louisville, Ky. 40103

Your cooperation in using the ZIP Code is appreciated. For further information, call your postmaster.

HOW MANY CHANGES IN A YEAR?

Out of every **100** People as listed in the last Directory

16% to **18%** Move away or die

17% to **19%** "New" people move into town or reach listing age.

26% to **29%** More change their addresses or their jobs or some other vital fact that affects their listing.

(All that's left that's good)

Making a total of **59%** to **66%** of the People listed who have new information in some particular which can be surely found only in the **NEW DIRECTORY**

Note: These figures are from repeated checks in numerous cities and do not vary 5% in any one year.

THAT IS WHY NEW DIRECTORIES MUST BE PUBLISHED EVERY YEAR.

When you choose a bank...

Remember: where there's HISTORY there's stability!

National State's history goes back over 150 years to a day in June when a group of Newark businessmen and civic leaders opened this bank to "encourage commerce and industry" in New Jersey.

Today, the bank's 23 conveniently located offices, and its ample resources of money and manpower assure that there is no banking service too large or too small for it to perform in the interest of economic growth.

NEWARK NUMERICAL DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation "r" between the street number and the name signifies "rear."

The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.

Δ Indicates telephone at this number.

"Right odd" after street description indicates odd numbers on right side of street.

The symbol ◎ following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.
